

REMARKS

First, the Examiner has objected to Fig. 9. Applicant has submitted an amended drawing Fig. 9.

Second, the Examiner has objected to the specification for informalities at column 1, line 63 and column 3, line 65. Applicant has amended the informality at column 1, line 63. However, applicant notes that the term "haft" has been used throughout the application to identify a portion of the operation body 16. See, column 3, line 11; column 3, line 62. As set forth in the dictionary, haft is synonymous with handle. Therefore, as is well known the applicant can be his or her own lexicographer, applicant believes the term haft is proper thereby requiring no further amendment to the specification.

Lastly, in the Office action claims 1-11 are pending in the application. Claims 3-11 have been allowed, claim 1 has been rejected under 35 U.S.C. § 112. and claim 2 has been objected to as being dependent upon a rejected base claim. Applicant has amended claim 1 to overcome the section 112 rejection.

It is respectfully submitted that the application is now in condition for allowance and, accordingly, reconsideration and allowance are respectfully requested. Should any questions remain regarding the allowability of the application, the Examiner is invited to contact the undersigned at the telephone number indicated below.
